San Bruno, California 94066-0720

Dear Mr. Song:

**SUMMARY OF PHASE 1B ECOLOGICAL RISK ASSESSMENT OF OFFSHORE SAMPLING
MEETING, HUNTERS POINT ANNEX, FEBRUARY 14, 1995**

The Department of Toxic Substances Control, (Department) has reviewed the above summary submitted to us on March 6, 1995. The revised minutes should be revised to reflect the following:

1. Addition: The Navy agreed that "bathymetric studies", which was requested by the Regional Water Board in their comment letter, will be done and included in the Sampling Plan. The Navy acknowledged that the result of "bathymetric studies" could change the transect locations.
2. Correction: With regards to the "**NATURE AND EXTENT CHARACTERIZATION**" the Department agreed that the current sampling program is adequate for "INITIAL " characterization of the nature and extent of contamination with the understanding that additional sampling may be required as appropriate for further characterization as well as developing and evaluating remedial options for offshore areas.

Should you have any questions regarding this letter and would like to seek clarification, please call me at (510) 540-3821.

Sincerely,

A handwritten signature in cursive script, reading "Cyrus Shabahari", is written over a horizontal line.
